The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest, in combination with all the elements recited in each of independent claims 43 and 60, the media storage device having alignment structures slidably engage with reference structures of the system housing to enable movement of the media storage device through the opening of the system housing, a drawer/moveable media exchange device received the media storage device and moveable between a retracted position and an extended position through the opening of the system housing, and guide rails/guide structures provided with the system housing and drawer/moveable media exchange device to enable movement of the drawer/moveable media exchange device between the retracted and extended positions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
